

Shraddha Sadavarte

Frontend Developer · MERN Stack · React Specialist

☎ +91 83299 63629 | ✉ shraddhasadavarte24@gmail.com | GitHub: [shraddha-sadavarte](#) | Pune, Maharashtra

PROFILE SUMMARY

Final-year Computer Engineering student (SGPA 8.9) with hands-on experience building production-ready web apps using React.js and the MERN stack. Proven ability to architect scalable frontend solutions — from state management with Context API to full-stack task systems with JWT auth. Seeking a frontend or full-stack role where I can ship real features and grow fast.

TECHNICAL SKILLS

Languages	JavaScript (ES6+) · Java · HTML5 · CSS3
Frontend	React.js · Context API · React Hooks · Responsive UI · Chart.js
Backend	Node.js · Express.js · Spring Boot · REST APIs · JWT Auth
Databases	MongoDB · MySQL
Tools	Git & GitHub · Postman · VS Code · npm
Learning	TypeScript · Redux Toolkit · Docker basics

PROJECTS

Expense Tracker [React.js · Context API · Chart.js] [↗ Live Demo / GitHub](#)

- Chose Context API over Redux intentionally — reduced bundle size by ~30% for a single-user financial app with no cross-component async needs.
- Built category-wise pie charts and monthly bar charts using Chart.js, enabling users to spot spending patterns at a glance.
- Designed real-time balance, income and expense tracking with dynamic forms — zero page reloads, instant UI feedback.
- Structured components for reusability: a single TransactionItem card handles both income and expense display via props.

Task Management System [MERN Stack · JWT · REST API] [↗ Live Demo / GitHub](#)

- Architected a full-stack task manager from scratch — Express REST API, MongoDB with Mongoose, React frontend — with JWT-based auth protecting all routes.
- Implemented task categorization (Completed / Incomplete / Favourites) using server-side filtering, reducing frontend data-processing overhead.
- Designed stateless authentication: JWTs stored in httpOnly cookies to prevent XSS attacks — a deliberate security decision over localStorage.
- Built fully responsive UI — tested across mobile, tablet, and desktop breakpoints with no horizontal scroll issues.

EDUCATION

BE Computer Engineering

SPPU — Narhe, Pune

SGPA: 8.9 / 10 2023 – 2026

Diploma — Computer Technology

A. Nagar Polytechnic

84.80% 2019 – 2022

SSC (Class X)

Jeur, Ahmednagar

86.40% 2019

CERTIFICATIONS

Core Java, Python & SQL — Zensor RPG Foundation

Web Development — CodSoft

WHAT SETS ME APART

- ▶ Decision-driven builder — every tech choice in my projects has a documented reason (e.g. Context API vs Redux, httpOnly cookies vs localStorage).
 - ▶ I don't just build features — I think about scale, security, and UX tradeoffs from the start.
 - ▶ Fast learner currently expanding into TypeScript and Redux Toolkit to meet industry standards.
 - ▶ Looking to contribute to a real product where I can own features end-to-end from day one.
-

Open to frontend, full-stack, and SDE internship / fresher roles. Available immediately.
